

DESCRIPTION OF THE FIRM

History:

Heath Construction Services, Inc. (HCS) was founded in Honolulu, Hawaii in January, 1996 by Fray Heath and Carolyn Heath. The principals and associates of the company come from engineering, and general contracting backgrounds.

Principals, Staff & Associates:

Fray Heath, President: Mr. Heath received his education at UCLA with a degree from the School of Engineering specializing in Structural Engineering and Mechanics. He graduated Cum Laude in 1971. He has been a General Contractor and Project Manager in Hawaii since 1977. Mr. Heath Provides general management, planning, scheduling and budgeting services to the projects under HCS's management.

Carolyn Heath, Vice President: Ms. Heath has an Associate of Arts Degree from University of Hawaii and provides Office Management and coordination support to HCS projects.

Ed Farwell: Mr. Farwell has Bachelor of Science degrees in Anthropology and Geography from California State College at Long Beach. His work experience in the building industry ranges from Carpentry to Project Engineering. Mr. Farwell is an Independent Consultant to HCS and provides field supervision and field management services to HCS projects.

Scope of Services:

HCS offers a complete set of Construction and Project Management services to its clients. The scope of services required by a client depends upon our entry point into the project. General categories of services that HCS typically provides are:

- Program development coordination and planning.
- Preliminary project budgeting, scheduling and feasibility analysis.
- Development of construction strategies.
- Project Team assembly, contracting and coordination.
- Pre-Construction Phase services (design review, budgeting, scheduling, bidding and contracting).
- Construction Phase services (construction administration, contractor management, project close-out and installation coordination).
- Warranty period management.
